

## Appendix 3.2 Littlemead Industrial Estate

---

### **Report on Consultations and Evidence gathered for Cranleigh's Neighbourhood Plan**

Event	Door to door distribution of surveys
Date	13 & 20 April 2015
Venue	Littlemead Industrial Estate Cranleigh
Purpose	To encourage employers and businesses to participate in the current survey, and help them to realise that the Neighbourhood Plan is about more than just housing
Evidence Report by	Lynda MacDermott

I went to Littlemead Industrial Estate in Cranleigh to carry out door-to-door distribution of the surveys and to discuss the current NP survey with businesses. I had informal conversations with managers and employers to encourage them to participate as soon as possible.

They were of course all busy and could not complete the survey at that moment, but they agreed to respond individually through the survey online.

Many said one massive problem was the lack of parking for clients and staff, which had not been provided at the time of building the estate, and was a very serious oversight as it hampered trade and was difficult for employees in a place, which is difficult to access by public transport.
