- Provision of sixth form education and primary healthcare services within the community, along with increased access to Police services locally.
- Delivering homes that are well designed, safe and sustainable, along with having access to jobs and service by non-car modes of travel.
- New housing should be focused in areas with good public transport and service access, with priority given to brownfield sites.
- To relieve the pressure on local villages to provide further development the progression of Dunsfold park garden village should be made a priority.
- The Council should work with the Parish and Town Councils, as they know their communities, this can be done via stakeholder workshops.

- The consultation needs to be more proactive at seeking a wider demographic of views from the local community, with engagement being transparent, inclusive, targeted, and accessible, especially for younger people, care home residents, people with health needs, and those with limited digital access.
- Feedback and responses from the consultation should be transparent and specific, to include data relating to individual Parish and Town Councils.
