WA/18/2044 Glebelands School, Parsonage Road, Cranleigh, Surrey, GU6 7AN

Consultation under Regulation 3 for construction of a two and single storey building with associated car parking provision, landscaping, all-weather sports pitch and new access from Parsonage Road to provide a replacement for Cranleigh Primary School with capacity of two forms of entry at Infant stage and three forms of entry at Junior stage on a single site currently forming part of Glebelands School playing field.

OBJECTION – Members agreed to repeat the points sent to SCC that was discussed and agreed at the Cranleigh Parish Council Meeting.

- The existing site was best placed for an expanded school.
- The access road was restricted and not appropriate for the traffic generated by a school of this size.
- No extra parking was being provided.
- There is no drop off/collection point.
- The plans allocate places for nearly double the number of pupils which will result in extra traffic.
- There will be additional traffic movements from the houses built on the existing primary school sites.
- The height of the school building had increased significantly and would be very prominent. It is over bearing and would result in overlooking of neighbouring properties.
- The risk of flooding on the site and cumulative impact off site.
- Loss of amenity for neighbouring properties.
- Noise from the site.
- Loss of school playing field for Glebelands which is forecast to increase in size due to significant local development.
- Impact on residents of Rowland Road and the high likelihood of parking on adjacent grassed areas which would need to be protected.
- Impact on the Common and Conservation Area of traffic movements, especially those using the alleyway from the High Street as a short cut to the site.
- The impact of the movement in this concentrated area of large numbers of people 2 times per day five days a week.
- Plans do not include for additional housing in Dunsfold and potential extra pupils at Glebelands School and resulting additional traffic movements.
- Impact on traffic movements to and from St Cuthbert Mayne School also should be considered.
- Concentrating parking in one area as opposed to the two school sites which currently disperses parking more evenly.
- Reduced parking due to new development.
- The Planning Statement including Statement of Community Involvement Nov 2018 Point 3.5 is incorrect," *The school bus, coach and car drop off would not take place within the application site but would take place on the existing lay-by bays along Parsonage Road, mirroring the arrangements currently used for the existing Cranleigh Primary School.*"
The proposed arrangements do not mirror the current arrangements as people currently park in the Church Lane car park to drop off at the infant school, which will no longer be available and there will also be some reduction of the parking bays due to the residential development on the junior school site. This statement glosses over the pressure from an increase in cars from significantly increased pupil numbers which this reduced parking arrangement is expected to accommodate in an extremely small area which will have additional pressure from an increase in pupil numbers at Glebelands School as well.
- Cranleigh is in a rural location and our schools draw pupils from a wide catchment, where it is recognised the use of the car is high.
- Of paramount importance is the safety of our children and being able to access their school safely.

WA/18/2054 19 Treleaver, Smithwood Avenue, Cranleigh, Surrey, GU6 8PS

Erection of an extension following demolition of existing extension.

NO OBJECTION.

WA/18/2055 7 Morels, Rowly Edge, Cranleigh, Surrey, GU6 8PU

NO OBJECTION.

WA/18/2071 Land South Of High Street Between Alfold Road And, Knowle Lane, Surrey

Approval of reserved matters for phase 2.2 for the erection of 130 dwellings with associated access, parking, drainage and landscaping works following the outline approval WA/2016/1625 for the erection of 425 dwellings. This is a subsequent application under the EIA Regulations and is accompanied by a statement of conformity (revision of WA/2017/2391)

OBJECTION – Members noted that the room sizes have been upped to National Standards. Members agreed to repeat their previous comments:

Members agreed that it appears the overall flood risk strategy for the site is no longer being followed, as given in the outline permission, bearing this in mind this area is the most vulnerable to flooding.

The term *broadly in accordance with recommendation of the approved outline flood risk assessment reference 50600576* is of great concern to the Parish Council, bearing in mind this area of the total development is the most vulnerable to flooding.

Members would like clarification on the height the land would be increased to, as suggested on page 2 of the drainage report.

In addition, the developers have seen fit to encroach on the tree RPA's, when there is so much land available for development.

WA/18/2074 Land Centred Coordinates 504755 139827 East Side, Guildford Road, Surrey

Erection of 40 dwellings (including 14 affordable dwellings) with new vehicular accesses and associated works.

OBJECTION – Members agreed this application is premature as the adopted WBC Local Plan Part 1 has met the short-term need for housing, so there is no need for more developments to be approved.

DW/18/0042 Aston, Woodlands Close, Cranleigh, Surrey, GU6 7HP

NO OBJECTION.

WA/18/2096 2, Mount Road, Cranleigh, Surrey, GU6 7LT
Erection of a single storey extension following demolition of existing single storey extension.

(One declaration of interest)

OBJECTION – Members questioned if the proposed extension contravened the 45% rule with respect to windows in the neighbouring property. Due to the pitched angle of the proposed roof there would be a loss of light to the neighbouring property, which would cause a loss of amenity to the neighbouring property, making the proposed extension overbearing and dominant.

(Cllr B Freeston returned to the meeting)
