Subject: Tree Planting 2022-2023

Dear all,

Through the benefit of last year's successful Forestry Commission's Treescapes fund ([LATF – click here for more information](#)), we were delighted to work with yourselves, residents, schools, and many other partners and community groups to deliver the planting of around 30,000 new trees across Surrey. We thank those of you that got involved in the project, increasing the canopy cover within your communities, and hope that you enjoyed your planting projects.

We have recently applied for another round of funding this year, and although we await the outcome of the bid, we would like once again to work with your Parish Councils delivering tree planting. Working with our partners is a core part of Surrey's Tree Strategy, so we hope you would consider being involved next planting season.

Tree planting can offer many benefits, including:

- Reduced air pollution
- Reduced noise pollution
- Carbon sequestration and storage
- Improved mental well-being
- Providing habitat and food for wildlife
- Improved water drainage
- Providing shade

and more!

We would like to gauge the interest from our Parish Councils, so if you are interested in receiving free trees to plant, then please do fill out our quick Microsoft Form here (<https://forms.office.com/r/H6vyh0Bu8M>) no later than 30th June 2022.

If you need more information or have questions, please do get in touch as we would be delighted to work with you on this green initiative working towards Surrey's greener future.

Best wishes,

Jess Eaton-Fearne (she/her)
